Indego

User Guide

Please read and understand this manual
carefully before using this product.

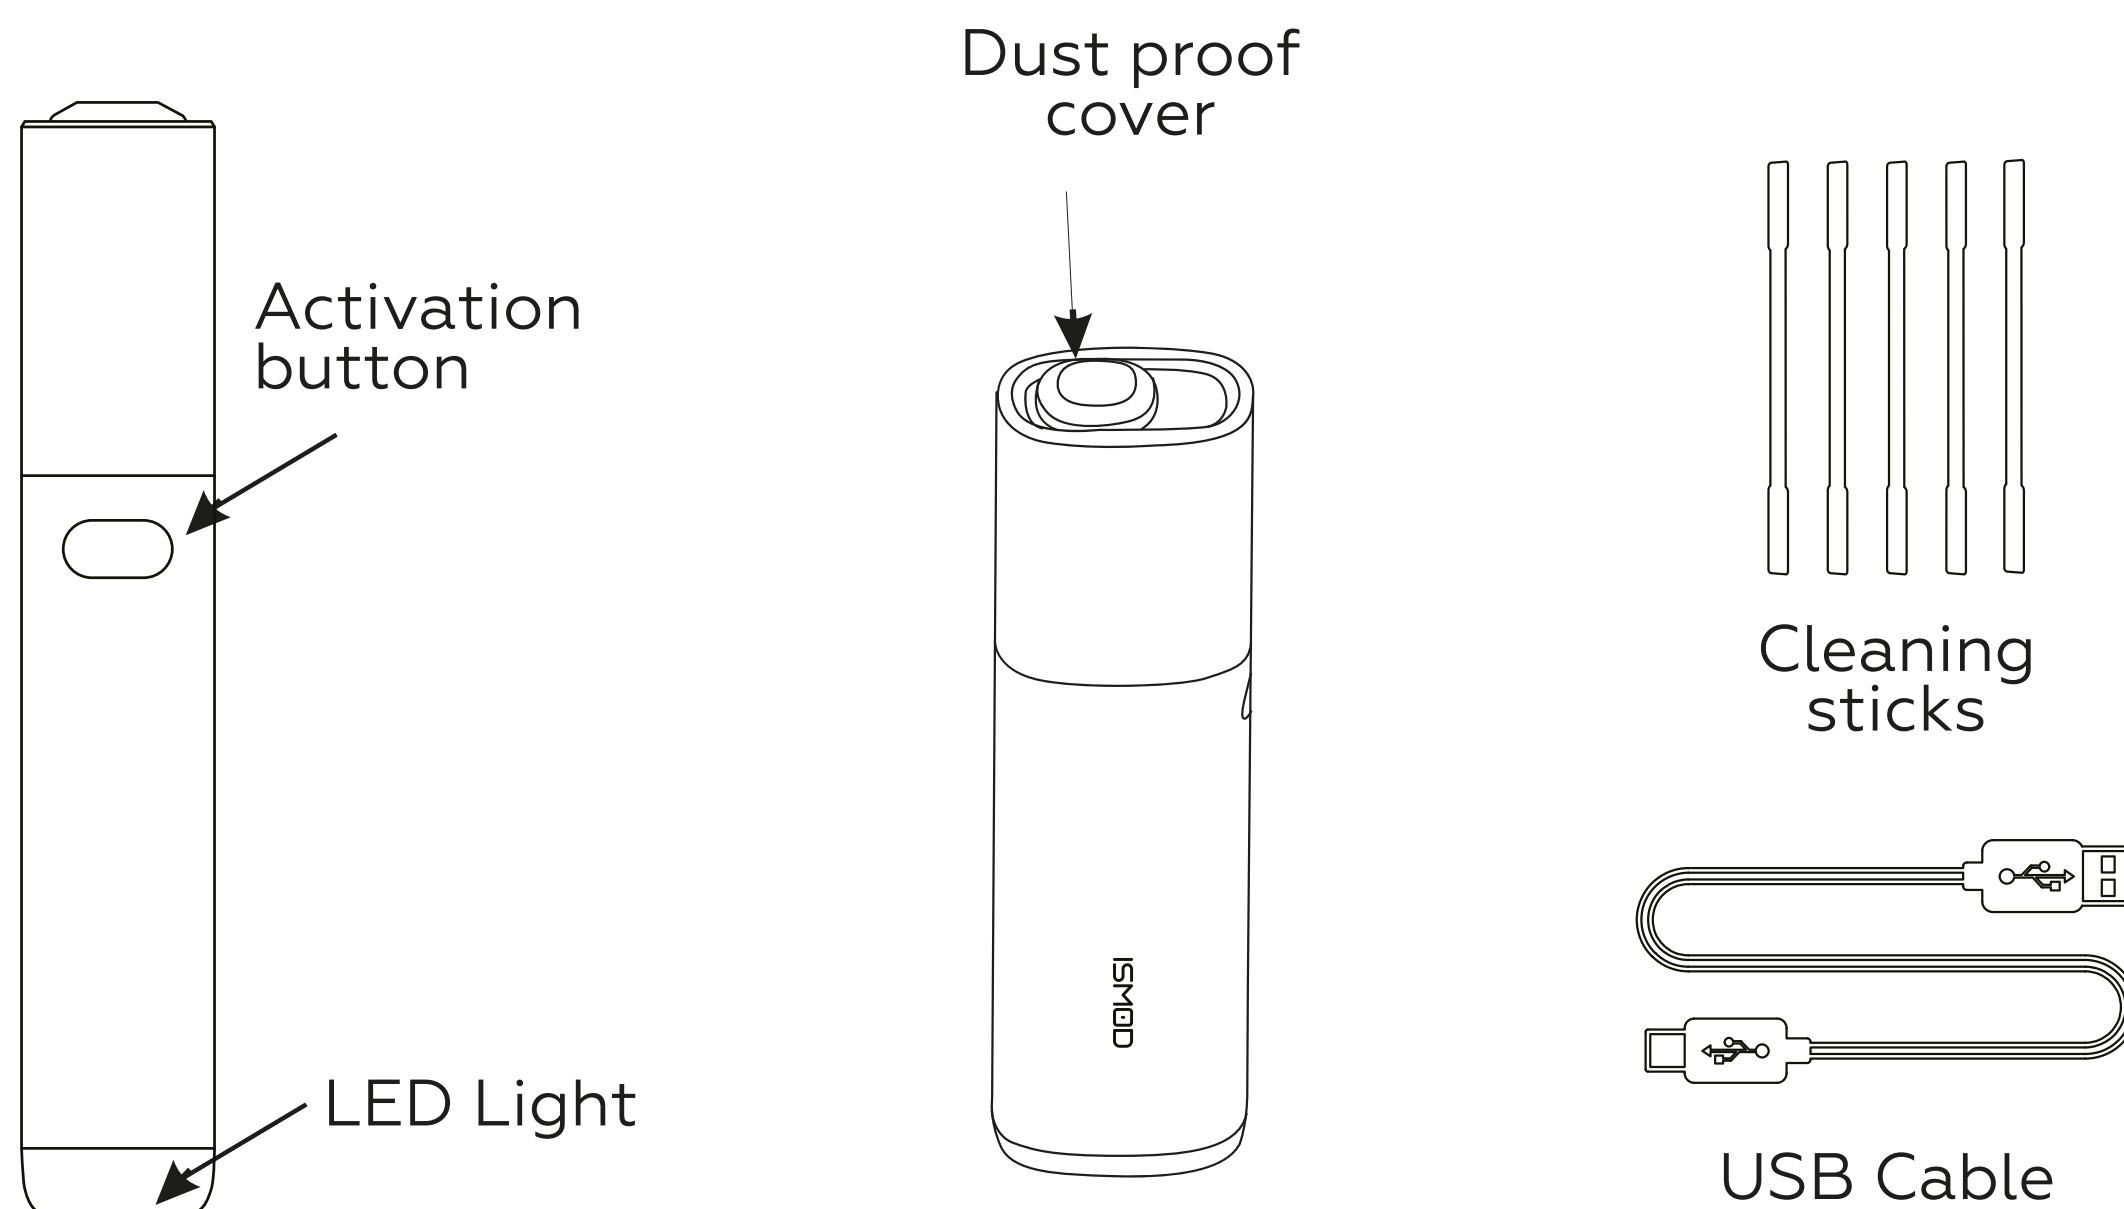

1. SAFETY WARNINGS AND INSTRUCTIONS

1. When you pick up and check the device after delivery, make sure the device is turned off.
2. This device is not suitable for: persons under the age of 18; children, pregnant women, nursing mothers; people with heart disease, high blood pressure, diabetes, nicotine allergies or who take medication to treat depression, asthma and other groups.
3. Keep the device and its components out of the reach of children and pets.
4. Store the device at room temperature. Do not expose the device to excessive heat or humidity.
5. Do not immerse any part or component of the device in water.
6. Do not use this device where flammable substances, liquids, gases or oxygen are present.
7. Do not use this device while it is charging.
8. Do not use a charging device that does not meet the charging requirements.
9. Before cleaning, opening or making direct contact with the internal heating components, you must check that the main body of the device has cooled down.
10. Please use and store the device at an ambient temperature of 5-40. A lower or higher temperature environment may temporarily reduce battery life or cause damage to the device.
11. If you notice any abnormal situation such as smell, or smoke, immediately stop the charging and usage, and contact your service provider.
12. If the battery is leaking from the product, avoid contact with skin and eyes. If you accidentally touch it, immediately wash with clean water and immediately consult a doctor.
13. The precautions contained in the user guide cannot cover all possible situations.

2. OVERVIEW

Buttonless operation. Insert the cartridge of non-combustible tobacco. Detecting the cartridge of non-combustible tobacco. Device for heating the cartridge of non-combustible tobacco with large capacity lithium battery. Smart and modular design. Easy to carry and use.

3. STRUCTURE

4. SPECIFICATIONS

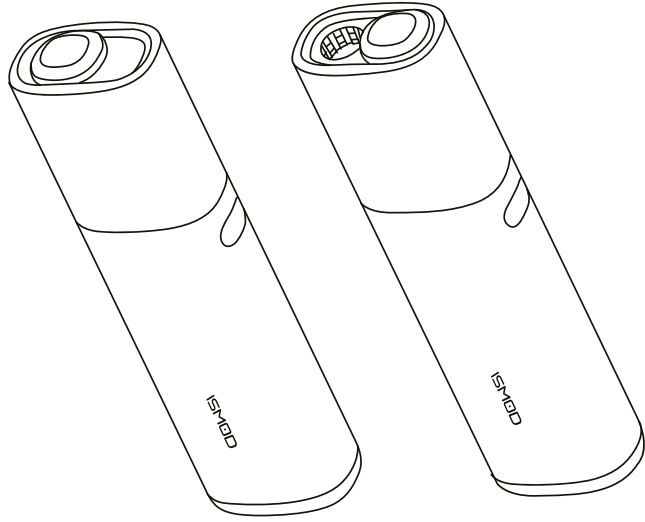

Model	ISMOD Indego NMate
Battery Capacity	1500mAh.3.7V
Charging Time	Less than 2 hours
Charging Method	USB-Charging port: type C ; Charger setting: 5V/1A
Preheat Duration	15 seconds
Working Duration	15 puffs or 300 seconds
Working Environment Temperature	5~40°C
Product Size	28mm (L) X 18mm (W) X 100mm (H)
Product Weight	57g

Child lock function, press and hold the button for 3 seconds to turn on or off the child lock function.

5. OPERATING INSTRUCTIONS
